OHIO WOMAN RECOVERS AFTER STOMACH TORTURE

Mrs. Nora Britton is well known in Caldwell, O., where she has lived for some time. Her many friends, who know the suffering she has endured from stomach trouble are marveling at the sudden and astonishing improvement in her condition.

"For four years I suffered, no one knows what. I had six doctors but received no benefit. One said it was catarrh of the stomach, another recommended an operation. I had given up all hope when I saw an advertisement of Mayr's Wonderful Remedy and decided to try it. Thank God, relief came at last. I can't say enough for it. I am pleased and thankful. I am recommending it to every person I meet, suffering with this ailment."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

West Virginia Briefs

FAIRMONT: The congregation of the First Baptist church by a unanimous vote has engaged the Rev. Harry Boehm, of Huntington, as assistant pastor. The increased membership of the church has made the regular pastor's duties burdensome.

PARKERSBURG: Prof. F. M. Long-

A Stitch in Time Saves Nine
An Ounce of Prevention is
Better Than a Pound
of Cure

Prima-Cura taken as first aid, right at the inception of tonsillitis or sore throat will prove a "stitch in time." It is so wonderfully powerful as an antiseptic that tonsillitis or sore throat vanish immediately if Prima-Cura is applied at once. Prima-Cura is severe, but sure. Without a question of doubt, Prima-Cura is the most wonderful remedy yet discovered for tonsillitis and sore throat. Any druggist anywhere, 25c and 50c bottles.—Advertisement.

anecker, superintendent of the Parkersburg public schools, has been re-elected for a term of two years at an increase of \$300 a year in salary.

CHARLESTON: Governor Hatfield and A. D. Williams, state highway engineer, have decided that the annual Good Roads days shall be postponed from this month to July 18 and 19 because bad weather has kept farmers behind in their work.

HUNTINGTON: White raincoats have been ordered for Huntington's traffic policemen and will be delivered within a few days. The coats are duplicates of those worn by the Detroit traffic policemen. White coats are chosen because of their distinctiveness.

PARKERSBURG: Charles Brooks, of Cairo, has been held for the next federal grand jury, which will meet at Elkins, and jailed in default of \$1,000 bail by Dorris Casto, United States court commissioner, under a charge of sending a threatening Black Hand letter to a prominent citizen of Cairo.

CHARLESTON: Postponement un-

til Wednesday has been granted by the public service commission of the hearing of the case against the West Virginia Water and Electric Company of Charleston, in which its rates to consumers of its supplies is involved. The hearing of the Chesapeake and Ohio passenger rate case now occupies the time of the commission.

POINT PLEASANT: Point Pleasant is to have a real chamber of commerce. This was decided at a meeting of the business men of the town which was held this week. The existing organization in moribund. The membership will be increased to 250, headquarters will be established, a secretary will be employed and many other things will be done.

ELKINS: Fire of unknown origin wiped out the business section of Whitmer, a lumber town near here, causing a loss of \$40,000 with \$16,000 insurance. The postoffice, Methodist parsonage and eight business buildings were destroyed.

CHARLESTON: Dennis Bowles, a miner, shot and killed Thomas Goodman, assistant foreman of the Shamrock mine at Keyford. The slayer then made his escape to the hills and is still at large. No cause for the shooting is known. Bowles worked in the mine until noon Monday when he left, cleaned himself up and then returned to the mine shaft. When Goodman came up Bowles fired two bullets into his body. Deputy sheriffs, assisted by miners, are scouring the hills for the fugitive.

CHARLESTON: The state tax commissioner has received \$2,883.64 as inheritance taxes from the estate of the late Harry Darlington, of Pittsburgh, as a tax on the transfer of stock in West Virginia corporations, payment being made by Mary E. Darlington. Mrs. Martha Glessler, of Wheeling, sent in a check for \$2,286.46 as inheritance taxes from the estate of the late William L. Glessler.

WHEELING: Surgeons and physicians from all parts of the state are arriving here for the forty-ninth annual session of the West Virginia State Medical Association. Mayor Kirk opened the convention this morning with an address of welcome. The West Virginia Nurses' Association will be in session at the same time. The state board examination for nurses is being held here with more than 100 candidates entered.

CHARLESTON: A negro suffering from smallpox occupying the pest-house and going from place to place begging food has caused an epidemic in Oakland, Charlestown, Smithers and vicinity. More than fifty are affected.

MARTINSBURG: B. F. Mathers, aged 81, a retired farmer and Union veteran, is dead. He served as bodyguard to President Lincoln when the latter made his address at Gettysburg.

CHARLESTON: Every clerk and stenographer in the secretary of state's office and every available stenographer in Charleston has been working at record-breaking speed certifying to the clerks of the circuit courts of the state the names of candidates for office which have been filed in that office prior to midnight, Saturday, May 6. These notices must be filed with the secretary of state at least thirty days before the date of the primary election and the secretary of state must notify the circuit clerk of each county in the state of all the candidates to be voted for in that county. This is being done by the secretary of state this week.

MARTINSBURG: The farmers of the Middleway vicinity of Berkeley county are having the first serious experience with a scarcity of men for farm work. Most of the men who have, in years past, supplied the farmers with labor are working at furnishing for the Louise Manufacturing Company, a new but thrifty enterprise at Middleway. At present about thirty men are employed at making chairs on a big order the company booked almost at the outset of its career. Timber material for chair-making has been gotten from a tract of woodland which the company recently bought from the heirs of the late James W. League.

MINER INJURED.

With both legs broken, Pasquale Romino, of Meadowbrook, has been taken to Fairmont Hospital No. 3. He was injured by a fall of coal while working in a mine.

GEO. D. RUST, TIN MILLWORKER, JOINS CHORUS

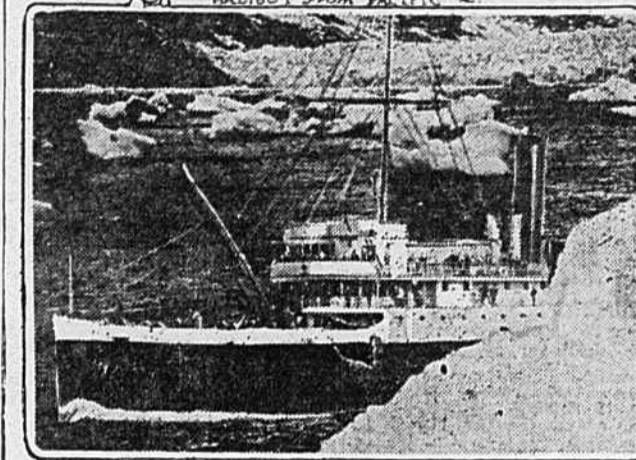

Morgantown Man Has Nothing but Praise for Nerv-Worth.

No victim of nerve or stomach ills should pass by this striking statement, whose honesty and sincerity are well proven by the fact that the endorser's name is signed to his words of praise. Mr. Rust's prominence and high standing in Morgantown make the following well worth the reader's attention: "I was exceedingly nervous and system very much run down. Had no ambition and went about my duties in a half-hearted manner. After taking one bottle of Nerv-Worth I found my nervousness disappeared. My stomach now is in good shape and digestion good. I cheerfully recommend Nerv-Worth to any one with bad nerves, stomach or digestion."

TIME TO ALASKA'S GOLD CAMPS NOW IS REDUCED BY THREE DAYS

Three days have been cut off the travel time from Washington to the government railroad camps and to the argonauts' and tourists' gateways to Alaska by a short cut through Canada. Steamer service from Prince Rupert to historic Wrangell and Skagway and other Alaska ports has been established by means of which, through the great wilderness of mountains in British Columbia, the tourist can reach Alaska in record time. The Grand Trunk Pacific steamers are to be sent on to Alaska after reaching Prince Rupert from Vancouver with a "courier" to name the mountain passes and to point out the halibut fisheries on the way. "This makes a direct route from the coast of Maine to the remote glaciers on the coast of Alaska," said W. P. Hinton, traffic manager, "by way of Prince Rupert, the Pacific port which was 'built to order,' where is one of the finest natural harbors in the world."

"SAFETY FIRST"

(Continued from page 1.)

stationed on the rail receive by means of the outfit the daily baseball scores and other news of importance.

Canary as Gas Detector.
A particularly interesting part of the show is in the car devoted to life-saving appliances and inventions in mines. A little canary, Goldie by name, is one of the big features here. Goldie has been asphyxiated seven times and she has been in mines all over the country. A canary, it seems, can detect the presence of gas in a mine before any other bird or animal. The bird is carried in a small cage, at the top of which is an instrument for pumping oxygen into the cage.

This cage is carried by one member of the party sent in to investigate the presence of gas in a mine and to do rescue work. As soon as the bird comes within the region where asphyxiating gas has accumulated, it begins to droop. At once oxygen is pumped into the cage and the bird is revived. As soon as the bird droops, the workers know that they are in danger and that they can penetrate no farther into the mine without donning helmets. The miners have about eight minutes to reach safety from the poisonous gas region after the canary droops, for it takes the period of time for the gas to affect them.

Holds Rescue Work Record.
Goldie is a brave little bird. The man who is in charge of her is George W. Riggs, who holds the world's record for rescue work in a mine. He worked continuously with an oxygen breathing equipment for fifty-nine days, fourteen hours and a half a day, in the Black Hawk mine, Utah, where a fire was raging. Miners' lamps, oxygen equipment and lung motors are on exhibition, together with effective illustrations of first aid to the injured.

Largely by means of the appliances shown, the death rate in mines has been decreased in a few years from 5 in 1,000 to less than 3 in 1,000. The reclamation exhibit proves what can be done with proper irrigation. By means of the reclamation service, the government has added practically four states to the country's area, and it is estimated that within a certain period of time, more than 20,000,000 persons will be settled on the lands which have been reclaimed or which are to be reclaimed.

Beauty Spots of Country Show.
The National Park Service shows by means of hand-painted window pictures the beauty spots of America. It hopes by educating the American people to an appreciation of the scenic grandeur of their own land to save \$100,000,000 which is estimated to be spent annually in times of peace by travelers from this country in Europe.

The Red Cross Society, the Weather Bureau, the Interstate Commerce Commission, the United States Coast Guard Service and other departments of the government have exhibits. The Coast Guard Service exhibit car in full-sized life saving boats, "the breeches-buoy" and other means of rescuing persons from the deep. More than 1,500 persons and 211,000,000 worth of property were saved by this department of the government last year.

GREAT TIME

For the Hundreds Who Attend the Great Spiegel Medicine Show.

The pie-eating contest was a scream last night at the Great Spiegel medicine show. It is a big touch in

see those urchins dig into the pies. McKinley Watkins won the first prize, \$1, and John Garrett second prize. The boys will duck into a pan of flour for money in silver, with their hands tied behind their back. You will laugh like you never laughed before. A big program is arranged for tonight, and there will be an apple eating contest Wednesday night.

Native girls of New Britain are kept in cages until they marry.

The United States produces a bushel and a half of apples per capita.

ALL FASCINATED BY WOMEN'S HAIR

With a Little Attention Hair Beauty Can be Quickly Doubled.

Nearly every woman who has an ordinary head of hair can by giving it just a little attention have luxuriant hair, soft, fluffy and radiantly beautiful.

It's a good thing to know this because hair preparations that put life and lustre into dull looking hair are scarce, but it is a fact known to nearly every druggist that Parisian Sage, a delightfully clean and refreshing tonic not only will make your hair look 100 per cent better, but will quickly stop it from falling, rid it of dandruff and scalp itch.

Parisian Sage is well worth a trial and Wells & Haymaker Company, who dispose of a great quantity of it will tell you so, and refund your money if it isn't all you expect.—Advertisement.

Potash is being made by a West Virginia company from the waste stems of tobacco plants.

A Mountain Playground For the Whole Family

Play golf, tennis, ride, drive, motor, fish or camp out—do any or all of these—or do none of them—it doesn't matter in Rocky Mountain National—Gates Park, Colorado. You go there to have a good time, and you have it.

If you want to climb mountains, gigantic Long's Peak, out-towering them all, invites you; or if you want to just down-right "loaf"—there is no better place in the country in which to do it.

If you are fond of long walks, Rocky Mountain National—Gates Park furnishes you with 100,000 pine-scented acres. If you would rather fish, the two million native and rainbow trout that are put into the streams each year insure lively sport in that direction.

I wish you would drop in at my office and let me tell you about the wonders of this Park, the accommodations, the hotels, boarding places, ranch houses, the cost of living out there, the daylight trip to and from the BURLINGTON Park, if you go via the BURLINGTON Route, and the good times the kiddies can have with the Park burros. If it will be more convenient for you to send me your name on a postal, I will answer by sending you some mighty interesting pictures, maps, and reading matter.
